INTRODUCTORY NOTE.

This volume contains a detailed statement of the constituencies proposed by the Indian Delimitation Committee for each province, (a) in the Provincial Legislative Assembly, (b) in the bicameral provinces, for the Provincial Legislative Council, (c) for the Federal Assembly, and (d) for the Council of State. In the case of the Federal Assembly, it also contains proposals for the non-provincial seats assigned to representatives of Commerce and Labour under the provisions of the Government of India Act.

2. The Committee's proposals for each province are embodied in a single appendix. The arrangement of the appendices is in the following order :—

PART I.

Provincial Legislative Assembly.

PART II.

Provincial Legislative Council (bicameral provinces only).

PART III.

Federal Assembly (where seats are allotted to a province in the Federal Assembly).

PART IV.

Council of State.

3. Part I of each appendix commences with a statement of the General, Muhammadan and, in the case of the Punjab and the North-West Frontier Province, the Sikh constituencies in the future Legislative Assembly. The seats allotted to the scheduled castes and, in the case of Bombay, to the Marathas, will, under the provisions of the Government of India Act, be reserved in multi-member general constituencies. The seat allotted to representatives of the backward tribes in Bombay, the seats allotted to representatives of the backward tribes in Bihar, and one of the seats allotted to backward tribes in Orissa, will also be reserved in multi-member general constituencies. The general constituencies in which they are so reserved are shown in the section devoted to the general constituencies in the provinces in question by a foot-note.

4. The subsequent sections of each appendix set out the constituencies and, in certain cases, the qualifications of electors and candidates and the arrangements proposed for Returning Officers or the method of election in the province concerned, for

- (1) Scheduled castes,
- (2) Women,
- (3) Anglo-Indians,
- (4) Europeans,
- (5) Indian Christians,
- (6) Backward areas and tribes,
- (7) Commerce,
- (8) Landholders,
- (9) Labour, and
- (10) Universities.

5. The estimated number of voters is in every case based on material supplied by the provincial Governments concerned. It should, however, *be emphasized that these figures, based as they are on preliminary and provisional electoral rolls, are necessarily tentative and approximate.* Local Governments have drawn the attention of the Committee to the fact that in every case, and more particularly in the case of women voters, a very substantial increase is to be expected once the final roll starts to be prepared.
